- Responsible for checking Cross Browser Compatibility of different elements and tags hence worked on different Browsers like Internet Explorer, Google Chrome, Firefox, Opera and Safari.
- Good understanding of Document Object Model and DOM functions.
- Expertise in Working with different Operating Systems like Windows.
- Certification in full stack java developer from Profound Edutech, Pune

KEY PROJECTS UNDERTAKEN

Project Name: Multikart E-Commerce.

Description: Our project is a versatile web and mobile-based application aimed at revolutionizing the shopping experience. With a primary focus on enhancing the shopping scenario, our application enables users to effortlessly search for products based on their specific requirements. Offering valuable insights into the products, users can access brief information about each item. Making the purchasing process seamless, the application allows users to buy products online through secure online payment methods. Additionally, a unique feature allows users to capture snapshots of products while trying them out virtually. The project is meticulously designed with various modules, each representing different pages of the current web application, ensuring a comprehensive and user-friendly platform for our customers.

TECHNICAL PREFERENCES

- Scripting Languages : JavaScript, Angular.
- Other Languages : c, core java
- Operating System : Windows
